Profile

Economics graduate student at the Paris School of Economics (ranked first in class at Dauphine–PSL) with over two years of research experience at the European Central Bank and the University of Copenhagen, focused on climate risk, carbon emissions and the labour-market effects of AI. Internationally minded, having studied and worked in France, Denmark, Germany and Thailand, I am a team player who pairs strong quantitative skills with proven leadership and communication strengths, with research covered by *The Guardian* and *Le Monde*.

Education

Master in Analysis and Policy in Economics (APE) — Paris
Paris School of Economics – ENS-PSL, EHESS, ENPC, UP1 — *2026 – Present*

Master in Quantitative Economics — Paris
Université Paris Dauphine – PSL — *2024 – 2026*

Ranked First in Class
Honours: summa cum laude
Grade: 16.2/20
Research Track – Advanced Quantitative Methods in Economics
M1 Coursework (2024–2025) — ECB Research Internship (2025–2026)

Bachelor in Economics and Finance — Paris
Université Paris Dauphine – PSL — *2021 – 2024*

Ranked Top 5%
Honours: magna cum laude
Grade: 15.8/20
Exchange Program at Thammasat University, Bangkok, Thailand, (GPA 4.00/4.00)

Baccalaureate in Mathematics and Physics — Copenhagen
Rysensteen Gymnasium — *2018 – 2021*

Ranked Top 1%
Grade: 12.1/12
Danish scale, exceeds maximum of 12 through bonus point

Research Experience

Research Trainee and Consultant — Frankfurt
Directorate General Research, European Central Bank — *Jun 2025 – Aug 2026*

Supervisors: Ana Lamo, Michele Lenza, Luc Laeven
Main Projects:
Building a database of climate indicators weighted by gridded economic activity.
Designing and conducting empirical research on AI and employment.
Other Projects:

Developing an inflation-at-risk model and programming a DSGE model with production networks.
Conducting literature reviews on trade policy and other contemporary policy issues.

Research Assistant Copenhagen
Department of Economics, University of Copenhagen *Jan 2025 – Present*

Supervisor: Jakob Roland Munch
Main Project: The Impact of Offshoring and Import Competition on Firm-level Carbon Emissions (*JAERE, 2026*)
Preparing and analysing large-scale micro-datasets and contributing to econometric modelling and estimation using tarde and Danish administrative data.

Research Assistant Copenhagen
Center for Economic Behavior and Inequality, University of Copenhagen *May – Dec 2024*

Supervisor: Sonja Settele
Projects: child penalties, mental models of education, household behaviour in times of negative interest rates and unemployment narratives; using survey data.

Teaching Experience

Macroeconomics Tutor
Université Paris Dauphine – PSL

Led weekly tutoring sessions for a class of 20 students.

Working Papers

Dry-roasted NUTS: early estimates of the regional impact of 2025 extreme weather
Uni Mannheim WP, with Sehrish Usman and Miles Parker

Coverage: The Guardian, Le Monde, El País, POLITICO Europe, Banque de France
R&R *Communications Earth & Environment* (Nature Portfolio)

Conferences and Seminars, attended

2026
Conference on Forecasting Techniques: Artificial intelligence, economic narratives, forecasting, and risk assessment (ECB), Transatlantic Seminar on Environmental and Energy Economics (BC), DGR Invited Speaker Seminar (ECB), AI in Economics Seminar (ECB), CCC Green Seminar Series (ECB), DGR Internal Seminar (ECB).

2025
Annual Conference on Nonbank Financial Institutions (ECB and NY Fed), Annual Financial Stability and Macroprudential Policy Conference (ECB), "The Next Financial Crisis?" ECB Annual Research Conference (ECB and Stanford's Hoover Institution), Inflation: Drivers and Dynamics 2025 Conference (ECB and Cleveland Fed), Conference on Monetary Policy 2025: Bridging Science and Practice (ECB), DGR Invited Speaker Seminar (ECB), AI in Economics Seminar (ECB), DGR Internal Seminar (ECB), CCC Green Seminar Series (ECB), Virtual Seminar on Monetary Economics (CEPR), PhD Seminars (UCPH), CEBI Seminar (UCPH), Internal Seminar (PSE).

Further Education

Applied Causal Inference with Big Data and AI
Directorate General Research, European Central Bank *Apr 2026*

Lecturer: Jann Spiess (Stanford University)

Fundamentals of Machine Learning using Python
Directorate General Research, European Central Bank *Apr 2026*

Provider: Krisolis

Deep Learning for Economists
Directorate General Research, European Central Bank *Nov 2025*

Lecturer: Jesus Fernandez-Villaverde (University of Pennsylvania)

Causal Analysis: Impact Evaluation and Causal Machine Learning
Directorate General Research, European Central Bank *Nov 2025*

Lecturer: Martin Huber (University of Fribourg)

Ecological Transition and Social Responsibility Certificate
PSL Research University *2024 – 2025*

Bloomberg Market Concepts Certificate
Bloomberg *Oct 2024*

Skills

Programming: Python, Stata, R, Matlab, Excel, Latex, SQL, Git

Data Management: Amazon Web Services, Spark, Hadoop, oTree

AI/Machine Learning: Claude Code, PyTorch, scikit-learn

Methods: Econometrics, Causal Inference, Impact Evaluation, Forecasting, Modelling

Languages: Danish (Native), French (Native), English (TOEFL – 110/120), Spanish (Intermediate)

Leadership Experience

Head of Department
Challenge Spi Dauphine

Managed a team of 6 members for a year and co-organised a regatta with 800 participants and a budget of 300,000 euros.

MEP Representative
Model European Parliament (MEP – BSR)

Represented the Danish student committee for the MEP; held a speech in the Austrian Parliament.

Interests & Activities

Sports & Performance: Competitive volleyball, French national Grandes Écoles championship qualifier (VBDO – AS Dauphine); choreographer and lead performer, year-long musical run to audiences exceeding 1,000 spectators (DO's Musical).

Volunteering: Elderly companion (Cycling Without Age, 2 yrs), youth camp animator (Don Bosco Istanbul, 1 mo), quality reviewer (Team for the Planet, 1 mo), renovator (Workaway Spain, 1 mo).

Student Jobs: Seller and team manager (Lagkagehuset, 2 yrs); Seller (Intersport, 1 yr); Waitress (Tholstrup Restauranter, 3 mos).
